

# Technology for In-Plants

**Increase Value to Your Organization and  
GROW your In-Plant**

## **Embrace In-Plant Managed Production Sourcing**

- **You're the Pros**
- **You can identify the requirements and challenges for each job.**
- **Know your capabilities and the capabilities of outside service providers.**
- **Manage EVERY job regardless of where it is produced**
- **Eliminate external threats**

## **Protect Your Turf – Be Pro-active!**

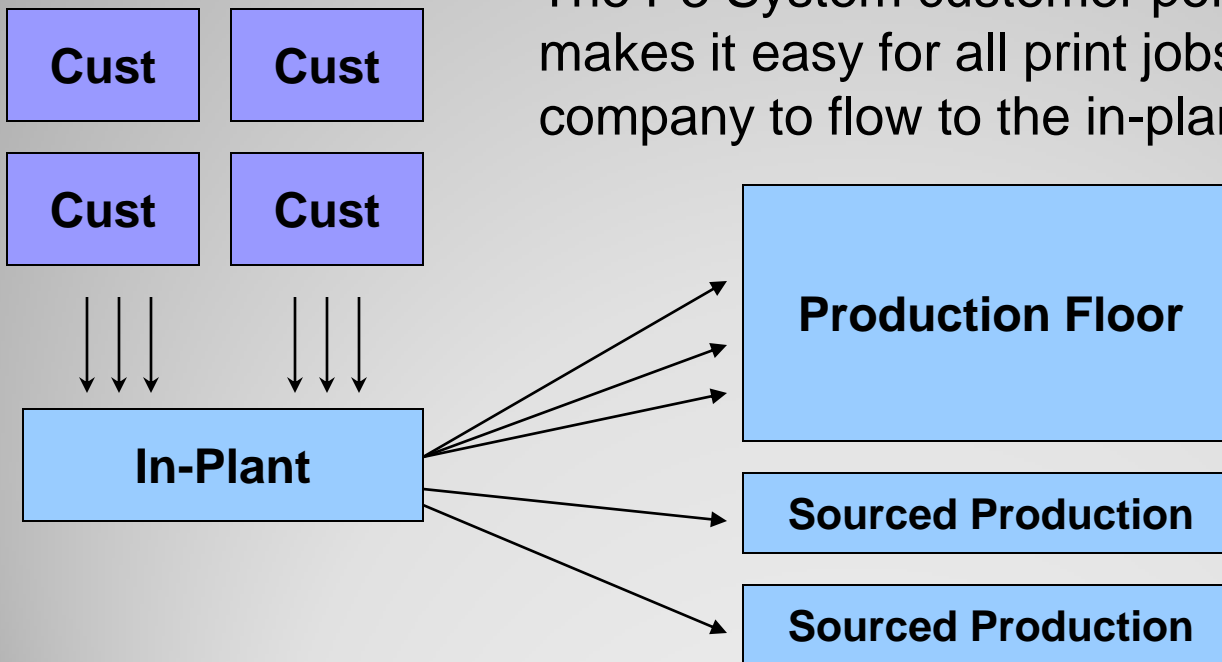

**It is estimated that over 80% of all organizations with in-plants have been approached by commercial print management outsourcing firms.**

**This activity will continue as business process outsourcing continues to grow in the US and globally.**

***The P3 System lets YOU manage ALL print your company needs and do it more cost effectively than any third party BPO company.***

## ALL jobs Flow to In-plant

The P3 System customer portal (P3Connect) makes it easy for all print jobs from your company to flow to the in-plant to be managed.

Or P3 can integrate with your existing systems

## Increase YOUR VALUE to Your Organization

***“A key aspect of maintaining a sustainable in-plant is upward visibility by senior management and budgetary authorities. Transforming one’s organization from a necessary overhead function to that of a value-added division is critical”***

***Editors, In-Plant Graphics***

Create reports in P3 showing transactions, volume, cost savings, etc. Identify growing areas of sourced production to justify new equipment and additional savings.
